FOR IMMEDIATE RELEASE

LifeWave Doubles Global HQ Space with Move to Kearny Mesa

(SAN DIEGO) (DECEMBER 9, 2010) – [LifeWave](http://www.lifewave.com), an international distributorship company in more than 90 countries that offers a full line of unique non-transdermal patch products, today announced that it has signed a new 5-year lease for 15,000 sq. ft. of class A office space in the Kearny Mesa area that will serve as its new global headquarters. Located at 9444 Balboa Ave., Suite 150, San Diego, CA 92123, the new space more than doubles LifeWave's current office.

Earlier this year in recognition of its explosive growth over the past year, [Inc.](http://www.entrepreneur.com) magazine ranked [LifeWave No. 1435](http://www.lifewave.com) on its fourth annual [Inc.5000](http://www.entrepreneur.com) list, an exclusive ranking of the nation's fastest-growing private companies. Moving up an amazing 3,390 spots from last year, the company's first year on the list, LifeWave ranked No. 4,825 in 2009 based on its revenue growth.

"We are delighted with the tremendous growth we have experienced over the past 12 months and as such, it has given us the opportunity to increase our staff as well as expand our research and development capacity," explains David Schmidt, founder and CEO of LifeWave. "This new facility will help to support our future growth, and make LifeWave a valuable contributor to the economy of San Diego."

According to Schmidt, LifeWave employees will move from their La Jolla-based office into the new space mid-December. The new headquarters includes a variety of new amenities for LifeWave including: a separate 4,000 sq. ft. research and design facility, a

new training area for distributors, a media room that will allow the company to produce its own webcasts and broadcast training sessions, among other video production tasks.

Founded in 2004 by Schmidt, creator of the patch technology, LifeWave was founded on the principle of breakthrough personal-improvement technology that helps people all over the world to feel great and live well. LifeWave non-transdermal patches gently stimulate acupuncture points to improve the flow of energy through the body. The patches offer pain relief without drugs, contain no supplements or stimulants, and affect acupuncture points without the need for needles. The LifeWave product line includes Energy Enhancer, IceWave, SP6 Complete, Silent Nights and Y-Age Glutathione and Carnosine patches.

LifeWave is a privately held company. For more information on LifeWave, visit www.lifewave.com. ###
